CHAIRMAN'S STATEMENT

“In conjunction with our 45th anniversary, we are ready to take on the challenges of the future and continue to grow in strength”

- Tan Sri Lim Kok Thay

On behalf of the Board of Directors, I am pleased to present to you the Annual Report and Audited Financial Statements of Genting Malaysia Berhad (formerly known as Resorts World Bhd) (“Company”) and its group of companies (“Group” or “We”) for the financial year ended 31 December 2009.

REVIEW OF RESULTS

As a result of the improving global economy in 2009, the Group was able to report marginally higher revenue of RM4.99 billion. The 2% increase from the previous year's revenue of RM4.89 billion is mainly attributable to the higher volume of business.

The Group's profit before tax of RM1.76 billion for 2009 was 56.6% higher than the previous year (2008: RM1.13 billion). This is primarily attributable to lower impairment losses of RM81.3 million in 2009, comprising mainly a RM48.6 million impairment loss for its investment in Walker Digital Gaming, LLC and a RM30.4 million impairment loss for its investment in Genting Hong Kong Limited (formerly known as Star Cruises Limited) (“Genting HK”). The Group's impairment loss in 2008 amounted to RM781.5 million in relation to Genting HK. Excluding these impairment losses, the Group's profit before tax would have been 3.7% lower than the previous year's profit before tax, mainly due to weaker luck factor in the premium players business and lower interest income.

An interim dividend of 3.0 sen less 25% tax per ordinary share of 10 sen each amounting to RM128.2 million was paid on 21 October 2009.

CORPORATE DEVELOPMENTS

Major corporate developments involving the Company and the Group in 2009 include the following:-

On 16 June 2009 at the Company's 29th Annual General Meeting, shareholders approved the renewal of the Company's authority to purchase its own shares for up to 10% of its issued and paid-up share capital. As at the date of this Chairman's Statement, the Company had purchased 207,201,100 of its own shares for a total consideration of RM707.5 million.

On 11 December 2009, the Company completed its acquisitions of the entire issued and paid-up share capitals of Oakwood Sdn Bhd (“Oakwood”) and Genting Highlands Tours and Promotion Sdn Bhd (“GHTP”) from Genting Berhad, for cash consideration and settlement of outstanding advances totaling RM284.1 million (“Acquisitions”). Oakwood owns Wisma Genting while GHTP owns land presently used as the Group's transport storage site in Segambut, Kuala Lumpur. The acquisition of Wisma Genting provided the Group with ownership of its Kuala Lumpur corporate office and full control over the tenant mix and management of Wisma Genting. In addition, the Acquisitions also enable the Group to reduce its rental expenses, earn recurring rental income and benefit from future property value appreciation.

CORPORATE AND MARKETING RE-BRANDING

The year 2009 marked another important milestone for the Company, when the Genting Group undertook a corporate re-branding exercise to underscore its strong heritage and position as a leading Asian conglomerate. As part of this exercise, the Company changed its name from Resorts World Bhd to Genting Malaysia Berhad on 18 June 2009.

PENYATA PENERUS

“Selaras dengan ulang tahun ke-45 Syarikat, kami bersedia untuk menahapi cabaran masa hadapan dan terus berkembang secara mantap”

- Tan Sri Lim Kok Thay

Bagi pihak Lembaga Pengarah, saya dengan sukacitanya membentangkan Laporan Tahunan dan Penyata Kewangan yang telah Diaudit untuk Genting Malaysia Berhad (sebelum ini dikenali sebagai Resorts World Bhd) (“Syarikat”) dan kumpulan syarikat-syarikat (“Kumpulan” atau “Kami”) bagi tahun kewangan berakhir 31 Disember 2009.

SEMAKAN PRESTASI

Oleh kerana ekonomi global semakin pulih dalam tahun 2009, Kumpulan telah berupaya melaporkan perolehan yang lebih tinggi pada RM4.99 bilion. Peningkatan 2% daripada RM4.89 bilion perolehan tahun sebelumnya didorong terutamanya oleh jumlah perniagaan yang lebih tinggi.

Keuntungan sebelum cukai Kumpulan sebanyak RM1.76 bilion bagi 2009 adalah 56.6% lebih tinggi daripada tahun sebelumnya (2008: RM1.13 bilion). Ini terutamanya berpunca daripada kerugian kemerosotan yang lebih rendah sebanyak RM81.3 juta pada 2009, kebanyakannya terdiri daripada RM48.6 juta kerugian kemerosotan bagi pelaburan dalam Walker Digital Gaming, LLC dan RM30.4 juta kerugian kemerosotan bagi pelaburan dalam Genting Hong Kong Limited (sebelum ini dikenali sebagai Star Cruises Limited) (“Genting HK”). Kerugian kemerosotan Kumpulan pada 2008 berjumlah RM781.5 juta adalah berkaitan dengan Genting HK. Tanpa mengambil kira kerugian kemerosotan ini, keuntungan sebelum cukai Kumpulan adalah lebih rendah sebanyak 3.7% berbanding dengan keuntungan sebelum cukai tahun sebelumnya, disebabkan terutamanya oleh faktor nasib yang lebih lemah daripada perniagaan pelanggan premium dan pendapatan faedah yang lebih rendah.

DIVIDEN

Syarikat berhasrat untuk memberi bayaran dividen yang tetap kepada pemegang saham sementara mengekalkan rizab tunai untuk peluang pelaburan bagi menjana pertumbuhan masa hadapan. Dividen interim sebanyak 3.0 sen ditolak cukai 25% untuk sesaham biasa 10 sen berjumlah RM128.2 juta telah dibayar pada 21 Oktober 2009.

Lembaga Pengarah telah mencadangkan dividen kasar akhir sebanyak 4.3 sen sesaham, untuk kelulusan pemegang saham pada Mesyuarat Agung Tahunan ke-30 yang akan datang. Oleh itu, jumlah dividen kasar untuk tahun kewangan 2009 ialah 7.3 sen sesaham (2008: 7.0 sen sesaham).

PEMBANGUNAN KORPORAT

Pembangunan korporat utama yang melibatkan Syarikat dan Kumpulan pada 2009 termasuklah berikut:-

Pada 16 Jun 2009 di Mesyuarat Agung Tahunan Syarikat yang ke-29, pemegang saham telah meluluskan pembaharuan semula kuasa Syarikat untuk membeli sahamnya sendiri sehingga 10% daripada modal saham terbitan dan berbayar. Sehingga tarikh Penyata Pengerusi ini, Syarikat telah membeli 207,201,100 sahamnya sendiri dengan jumlah bayaran RM707.5 juta.

Pada 11 Disember 2009, Syarikat telah menyelesaikan pemerolehan keseluruhan modal saham terbitan dan berbayar Oakwood Sdn Bhd (“Oakwood”) dan Genting Highlands Tours and Promotion Sdn Bhd (“GHTP”) daripada Genting Berhad, untuk balasan tunai dan penyelesaian pendahuluan tertunggak berjumlah RM284.1 juta (“Pemerolehan”). Oakwood memiliki Wisma Genting sementara GHTP memiliki tanah yang ketika ini digunakan sebagai tapak simpanan pengangkutan Kumpulan di Segambut, Kuala Lumpur. Pemerolehan Wisma Genting membolehkan Kumpulan memiliki pejabat korporat di Kuala Lumpur dan kawalan sepenuhnya ke atas pengurusan dan gabungan penyewa Wisma Genting. Di samping itu, Pemerolehan juga membolehkan Kumpulan mengurangkan perbelanjaan sewa, meraih pendapatan sewa yang berulang dan faedah daripada kenaikan nilai hartanah di masa hadapan.

PENJENAMAAN SEMULA KORPORAT DAN PEMASARAN

Tahun 2009 menandakan satu lagi peristiwa penting kepada Syarikat apabila Kumpulan Genting melaksanakan usaha penjenamaan semula korporat bagi mengesahkan warisan dan kedudukan syarikat yang kukuh sebagai peneraju konglomerat di Asia. Sebagai sebahagian daripada usaha ini, Syarikat telah menukar nama daripada Resorts World Bhd kepada Genting Malaysia Berhad pada 18 Jun 2009.

Identiti *Resorts World* telah diambil alih oleh tempat-tempat peranginan berintegrasi yang bertaraf dunia Kumpulan Genting. Dalam usaha untuk memenuhi permintaan daripada pasaran global, usaha penjenamaan semula telah mengukuhkan identiti korporat kami. Oleh itu, sejak 1 Oktober 2009, Genting - Kota Hiburan (City of Entertainment) telah dikenali sebagai Resorts World Genting, dengan visi pemasaran, misi dan nilai teras yang baru. Visi pemasarannya adalah untuk menjadi peneraju jenama dalam destinasi Tempat Peranginan Berintegrasi sementara misi barunya adalah untuk memberikan tetamu pengalaman yang paling indah dengan produk dan perkhidmatan yang inovatif dan berbeza. Nilai teras yang baru bagi mencapai visi dan misi adalah kepercayaan, integriti dan saling menghormati, diikuti dengan yang kedua iaitu memastikan pekerja-pekerja sentiasa mengambil berat dan penyayang, saling bantu-membantu antara satu sama lain dan berkongsi sumber, dan yang ketiga ialah mewujudkan persekitaran yang ceria dan menggembirakan.

Syarikat juga berusaha untuk bekerjasama dengan syarikat-syarikat lain dalam Kumpulan Genting bagi mempromosikan jenama *Resorts World* di serata benua.

主席文告

“迎合集团的45周年，我们准备迎接未来的挑战，并持续寻求稳健茁壮成长。”

- 丹斯里林国泰

我谨代表董事局，欣然提呈云顶马来西亚(前称名胜世界) (“公司”)及其集团公司在截至2009年12月31日财政年的常年报告及已审核财务报告。

业务审核

鉴于全球经济于2009年出现改善，促使集团有能力取得四十九亿九千万令吉的营业额，比上一财政年所取得的四十八亿九千万令吉营业额表现，扬升2%，主要是更高的业务额所推动。

集团2009年财政年的税前盈利达十七亿六千万令吉，较前期劲扬56.6%(2008财政年:十一亿三千万令吉)。这主要归功于2009年财政年作出总值八千一百三十万令吉较低的减值亏损，即主要数额为在Walker Digital Gaming, LLC总值四千八百六十万令吉的投资减值亏损，以及在云顶香港(前称丽星邮轮)总值三千零四百万令吉的投资减值亏损。集团在2008年财政年在云顶香港所面对的减值亏损总值达七亿八千一百五十万令吉。撇除这些减值亏损，集团的税前盈利则比前年的税前盈利低3.7%，主要是高档消费群较低的运气因素及更低的利息收入所致。

股息

在著重于维持可供作投资，续而带动未来业务成长用途的现金储备的同时，公司寻求通过持续的派息率来回馈股东。公司于2009年10月21日，为每股面值十仙的股票，支付三仙，需扣税25%的中期股息，总值达一亿二千八百二十万令吉。

董事局欣喜地建议派送每股四点三仙的终期股息，并寻求股东在来临的第30届常年股东大会中通过。2009年财政年的股息因而达每股七点三仙(2008年:每股七仙)。

企业发展

以下为公司及集团于2009年所进行的主要企业发展:-

于2009年6月16日，在公司第29届常年股东大会中，股东们批准公司回购高达10%的发行与缴足资本。在截至这主席报告期间，公司回购了二亿零七百二十万一千一百股的股票，总值七亿零七百五十万令吉。

于2009年12月11日，公司以总值二亿八千四百一十万万令吉现金及预付额，向云顶完成收购Oakwood有限公司 (“Oakwood”) 及Genting Highlands Tours and Promotion 有限公司 (“GHTP”) 所有的发行与缴足资本。Oakwood持有云顶大厦，而GHTP则在吉隆坡泗岩沫持有现充作集团运输贮存的地段。收购云顶大厦，有助于让集团拥有吉隆坡企业办公室的持有权，并全面掌管云顶大厦的租赁及管理组合。再者，有关的收购计划也有助于让集团减低其租赁开销、赚取经常租金收入及在未来物业价值增值趋势下受惠。

企业与重塑市场品牌

2009年标榜著公司的另一个重要里程碑，即云顶集团进行了企业品牌重塑，进而奠定其作为亚洲领导先锋的地位。作为重塑品牌的部份计划，公司在2009年6月18日，将名胜世界易名为云顶马来西亚。

云顶集团的世界级综合名胜皆命名为“名胜世界”。在致力于迎合全球化的市场需求，品牌重塑也进一步巩固了我们的企业形象。在新的愿景、使命及核心价值谷催下，云顶娱乐城于2009年10月1日成为了云顶名胜世界。其愿景是成为综合度假胜地的领导品牌，而其新使命即是通过创新及独树一帜的产品与服务，为客户留下最完美的体验。新核心价值就是致力落实愿景与使命，即讲究第一：信任、诚恳与互相尊重；第二：对员工的要求体现出关怀备至，为彼此寻求分享资源；以及第三：打造有趣和快乐的环境。

公司也将会与集团内的姐妹公司保持紧密联系，在区域共同推广名胜世界的品牌。

企业社会责任

我们致力继续成为企业典范。作为休闲与旅游领域的领导者，集团放眼在持续性的商业环境内，以负责任的操守，提供世界级的娱乐。集团的企业社会责任计划，旨在兑现这一目标。我们的目标是要在履行对股东职责的和谐氛围下，在管理与业务营运工作场所和社区等程序方面，超越行业标准。

我们在2009年的主要企业社会责任活动，已在本常年报告中详尽阐述。

随著区域旅游市场，在新景点、更可负担的航空旅游及财富趋势走高的情况下，2010年的休闲与旅游领域的前景表现预计也随之获得改善。

集团将继续在所有业务环节上，专注回酬管理，并改善营运效率。鉴于旅游领域的竞争越见激烈，集团将会持续研发具创新的策略，以提高云顶名胜世界的到访率。

一如在过去数十年来所付诸的努力，集团将继续强调名胜世界在地理位置、产品与服务素质上的特征，以及提供刺激及令人难忘的休闲与娱乐活动。

集团也将持续探讨有助于带入长期企业价值与成长的策略投资良机。

2010年也是云顶集团的45周年庆。我们于2010年1月起在马来西亚展开周年庆祝活动，而我预见这会是一个多姿多彩的一年，因云顶名胜世界已精心策划一系列别开生面的活动，让周年庆更锦上添花。

感激

我想在这感激所有在这一年内，作出宝贵及巨大贡献的董事局成员。

HOTELS

For the year under review, the Resort's five hilltop hotels (**Maxims Genting**, **Highlands Hotel**, **Resort Hotel**, **Theme Park Hotel** and **First World Hotel**) achieved an overall average occupancy rate of 92% (2008: 90%). A record high of 2.76 million (2008: 2.64 million) room nights were sold, constituting a growth of 5%. The improvements in occupancy rate and room nights sold were achieved despite the H1N1 outbreak and global economic uncertainty. Marketing efforts offering value-for-money packages have focused on the domestic market and neighbouring countries such as Singapore, Thailand, Indonesia and Vietnam, with encouraging response and growth.

During the year, the Resort's hotels progressively upgraded its products, facilities and services to ensure service excellence. These upgrades included additional hotel check-in counters at locations outside the hotels for guests' convenience, improvements in automated self check-in and out kiosks and the addition of lift key card readers to enhance security. All the hotels received certifications for the ISO 9001:2008 in Quality Management System. Furthermore, business process improvements were introduced throughout the Hotel Division.

Maxims Genting (www.maxims.com.my), the Resort's flagship hotel, offers 244 suites and 175 deluxe rooms which are lavishly furnished and fully equipped with facilities. For timely and prompt service, Maxims Genting further refined its one-call centre, aptly named 'At Your Service', to handle all service requests at a touch of a button. **First World Hotel**, with its 6,118 rooms began the Ambassador Program during the year at its lobby to provide a variety of personalised service to assist guests.

CORPORATE SOCIAL RESPONSIBILITY

The Group seeks to balance its corporate social responsibility with the long-term interests of stakeholders such as its shareholders, customers, employees, business partners, local communities and others. The Group is focused on its contributions towards economic development, community welfare, environmental care and employee welfare. The Group continuously seeks to enhance its corporate values and adopt ethical business practices. In line with the Listing Requirements of Bursa Malaysia Securities Berhad, which requires listed companies to provide a description of its corporate social responsibility ("CSR") activities and practices, these efforts are now being articulated under the Group's CSR framework, with the Group's various subsidiaries having specific areas of focus within its respective areas of business.

ENVIRONMENT

The Group's keen interest in the sustainability of the environment means that the Resort holds a strong environmentally-friendly approach, in line with the National Green Technology Policy, the aim being sustainable development and conservation of the environment for future generations.

The Group's environmental management systems are constantly reviewed and adapted in relation to four core areas of interests, namely the conservation of natural resources (energy, fuel and water), waste management, prevention of pollution to water, land and air, as well as the use of renewable energy.

The Group employs various schemes to conserve natural resources and reduce the consumption of energy, fuel and water. A professional consultant is engaged to conduct an energy audit to identify cost-effective energy-saving opportunities in line with the building energy efficiency index. Measures include installation of energy-saving lights and reduce heat loads from air-conditioning systems. Escalators are switched off during off-peak times and sensors are installed to control operations. Employees are also briefed on Energy Conservation Awareness by the Group's Engineering Department.

For fuel conservation, the Group employed a heat recovery system by installing air pre-heaters at steam plants. Mechanical steam traps were replaced with fixed orifice steam traps to limit steam loss. Steam plant operations were also optimised to reduce steam losses and leakages and to prevent short cycling on boiler operations. To conserve water, flow restrictors were installed and effective water volume reduction programmes were implemented at water cisterns at selected areas. Monthly maintenance and daily checking of toilets are carried out to ensure immediate repair of water leakages.

Waste management efforts follow the 3R (Reduce, Reuse and Recycle) programme and scheduled waste management in accordance with the Environmental Quality Act 1974. 'Reduce' is achieved by using long-life energy-saving lights, reusable cutleries and chemical tanks. 'Reuse' is achieved by re-using waste paper for printing and back office usage. 'Recycle' is achieved by waste segregation at source and waste delivery according to types of waste. The Group also practises vermin-composting to turn food waste into organic fertiliser.

The Group implements various initiatives to prevent water, land and air pollution. To prevent water pollution, the Yearly Sanitary Survey is conducted on the water supply system and remedial actions taken to trace and remove possible contamination sources. Bio-degradable chemicals are used for laundry, rooms, cleaning of public areas and stewarding. Besides this, diesel engines at pump houses were replaced with electrical motors to reduce water source contamination from diesel spillage. To prevent land pollution, recycling is practised to reduce waste disposal at landfill sites, and the use of bio-degradable plastic bags and paper wrappers are promoted. To control air pollution, smoke density meters are installed to monitor flue gas quality generated by boilers. Flue gas analyses were also carried out for generator sets, boilers and incinerators in accordance with the Written Approval issued by the Department of Environment, in line with the Environmental Quality Act. Air pollution control systems were also installed to treat the flue gas.

The Group Human Resources Department, through its Occupational, Safety and Health ("OSH") Section has initiated a Mentoring Programme on ISO 14001 and OHSAS 18001 for Awana Genting Highlands, Awana Langkawi, Awana Kijal and the Casino Departments. The OSH Section also ensures that chemicals used comply with the Restriction of Hazardous Substances (RoHS) and Occupational Safety and Health (Classification, Packaging and Labelling of Hazardous Chemicals) Regulations 1997.

One of the National Objectives Strategies of the Ministry of Energy, Green Technology and Water is to monitor the impact, improve efficiency of utilisation and conversion, and promote renewable energy. The strategic location of the Resort, which is exposed to wind and sunlight daily, makes the option of generating electricity through the usage of wind and solar energy viable. The Group is currently looking into ways to promote renewable energy as part of its long-term plan.

STATEMENT ON INTERNAL CONTROL

as at 31st December, 2009

The Board's Responsibilities

In relation to internal control, pursuant to the requirements under the Malaysian Code on Corporate Governance for companies listed on the Bursa Malaysia Securities Berhad ("Bursa Securities"), the Board of Directors ("the Board") acknowledges their responsibility under the Bursa Securities Main Market Listing Requirements to:-

- Identify principal risks and ensure implementation of appropriate control measures to manage the risks.
- Review the adequacy and integrity of the internal control system, management information systems and systems for compliance with applicable laws, regulations, rules, directives and guidelines.

It should be noted that an internal control system is designed to manage risks rather than eliminate them and can provide only reasonable but not absolute assurance against any material misstatement or loss.

The Board confirms that there is an ongoing risk management process established to identify, evaluate, and manage significant risks to effectively mitigate the risks that may impede the achievement of the Genting Malaysia Berhad (formerly known as Resorts World Bhd) Group of companies' ("the Genting Malaysia Group") business and corporate objectives. The Board reviews the process on a regular basis to ensure proper management of risks and measures are taken to mitigate any weaknesses in the control environment.

The Risk Management Process

The Genting Malaysia Group has implemented the Control Self-Assessment ("CSA") to formalise the risk management process. With the CSA, departments/business areas of the Genting Malaysia Group are required to identify and evaluate controls within key functions/activities of their business processes.

The implementation of the risk management process for the Genting Malaysia Group is the responsibility of the Executive Committee comprising the Executive Directors, the Business/Operations Heads of the Genting Malaysia Group's operating units with oversight and assistance provided by relevant senior management staff of the holding company, Genting Berhad. The Risk and Business Continuity Management Committee ("RBCMC"), chaired by the Chief Financial Officer, further oversees the effectiveness of the risk management program.

The key aspects of the risk management process are:-

- Business/Operations Heads are required to update their risk profiles on a half yearly basis and in this regard issue a Letter of Assurance at the end of each second half yearly review to confirm that they have reviewed the risk profiles, risk reports and related business processes and are also monitoring the implementation of action plans.
- Reviews of the risk profiles, the control procedures and status of the action plans are carried out on a regular basis by the Head-Risk Management of the holding company and the Business/Operations Heads.
- Management of the respective companies are provided with reports to enable them to review, discuss and monitor the risk profiles and implementation of action plans.
- The risks to the Genting Malaysia Group's strategic objectives are assessed at both the group and company levels.
- On a quarterly basis, a risk report detailing significant risk issues and control measures implemented or to be implemented to deal with the risks will be reviewed by the RBCMC prior to being tabled to the Genting Malaysia Group Executive Committee.

- On a quarterly basis, a risk management report summarising the significant risks and/or the status of action plans are presented to the Audit Committee for review, deliberation and recommendation for endorsement/approval by the Board.

The Internal Control Processes

The other key aspects of the internal control process are:-

- The Board and the Audit Committee meet every quarter to discuss matters raised by Management of the Genting Malaysia Group ("Management") on business and operational matters including potential risks and control issues.
- The Board has delegated their responsibilities to various committees established by the Board and Management to implement and monitor the Board's policies on controls.
- Delegation of authority including authorisation limits at various levels of Management and those requiring the Board's approval are documented and designed to ensure accountability and responsibility.
- Internal procedures and policies are clearly documented in manuals and reviewed and revised periodically to meet changing business, operational and statutory reporting needs.
- Performance and cash flow reports are provided to Management and the Genting Malaysia Group Executive Committee to review and monitor the financial performance and cash flow position.
- Business/operating units present their annual budget which includes the financial and operating targets, capital expenditure proposals and performance indicators for approval by the Genting Malaysia Group Executive Committee and the Board.
- A half yearly review of the annual budget is undertaken by Management to identify and where appropriate, to address significant variances from the budget.

Some weaknesses in internal control were identified for the year under review but these are not deemed significant and hence have not been included in this statement, as these weaknesses have not materially impacted the business or operations of the Genting Malaysia Group.

Business continuity management is regarded to be an integral part of the Genting Malaysia Group's risk management process. In this regard, the Genting Malaysia Group has commenced implementation of business continuity plans to minimise business disruptions in the event of potential failure of critical IT systems and operational processes. The documentation of the business continuity plan for the Genting Malaysia Group's core business operations is in place and has been updated periodically.

The Internal Audit Function

The Internal Audit function is provided by the Internal Audit Department of the holding company, Genting Berhad, based on the plan approved by the Genting Malaysia Group Audit Committee to undertake regular and systematic review of the internal controls and to provide the Genting Malaysia Group Audit Committee with sufficient assurance that the systems of internal control are effective in addressing the risks identified.

On a quarterly basis, audit reports and the plan status are submitted for review and approval by the Genting Malaysia Group Audit Committee. Included in the reports are recommended corrective measures on risks identified, if any, for implementation by Management.

The Statement on Internal Control is made in accordance with the resolution of the Board of Directors.

OTHER STATUTORY INFORMATION

Before the income statements and balance sheets of the Group and of the Company were made out, the Directors took reasonable steps:

- (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts, and satisfied themselves that all known bad debts had been written off and adequate allowance had been made for doubtful debts; and
- (ii) to ensure that any current assets, other than debts, which were unlikely to realise in the ordinary course of business their values as shown in the accounting records, were written down to an amount which they might be expected so to realise.

At the date of this report, the Directors are not aware of any circumstances:

- (i) which would render the amount written off for bad debts or the amount of the allowance for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent;
- (ii) which would render the values attributed to the current assets in the financial statements of the Group and of the Company misleading;
- (iii) which have arisen which render adherence to the existing methods of valuation of assets or liabilities in the financial statements of the Group and of the Company misleading or inappropriate; and
- (iv) not otherwise dealt with in this report or in the financial statements of the Group and of the Company, that would render any amount stated in the respective financial statements misleading.

At the date of this report, there does not exist:

- (i) any charge on the assets of the Group or of the Company that has arisen since the end of the financial year which secures the liabilities of any other person; or
- (ii) any contingent liability in respect of the Group or of the Company that has arisen since the end of the financial year.

No contingent or other liability of the Group or of the Company has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Group or of the Company to meet their obligations as and when they fall due.

In the opinion of the Directors:

- (i) the results of the operations of the Group and of the Company for the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature except for those disclosed in the financial statements; and

Fair values of net assets acquired and net cash outflow on acquisition of subsidiaries as disclosed in Note 43(c) are analysed as follows:

Less: Cash and bank balances acquired	(0.0)	(1.0)	(1.0)
Net cash outflow on acquisition of subsidiaries	24.5	257.5	282.0

The Group considers the acquisition of Genting Highlands Tours and Promotion Sdn Bhd ("GHTP") to be an acquisition of a group of net assets rather than business as defined in FRS 3: Business Combinations, as prior to acquisitions, GHTP was holding the leasehold properties in a passive fashion with limited operations. The Group has completed its purchase price allocation exercise on the acquisition of Oakwood Sdn Bhd ("Oakwood") and has accounted for the fair value adjustments on 11 December 2009 accordingly. The Group has not accounted for the results of Oakwood and GHTP in the consolidated income statement for the period from 11 December 2009 to 31 December 2009 on the ground of immateriality. Had the acquisition taken effect on 1 January 2009, the revenue and net profit of Oakwood and GHTP included in the consolidated income statement of the Group would have been RM19.0 million and RM5.1 million, respectively. These amounts have been calculated using the Group's accounting policies.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2009

Amounts in RM million unless otherwise stated

1. PRINCIPAL ACTIVITIES

The Company is involved in a tourist resort business at Genting Highlands and its principal activities cover leisure and hospitality services, which comprise gaming, hotel, entertainment and amusement.

The principal activities of the subsidiaries include property development and management, leisure and hospitality services, investments, timeshare ownership scheme, tours and travel related services.

Details of the principal activities of the subsidiaries are set out in Note 42 to the financial statements.

There have been no significant changes in the nature of the activities of the Group and of the Company during the financial year.

On 18 June 2009, the Company changed its name from Resorts World Bhd to Genting Malaysia Berhad.

2. BASIS OF PREPARATION

The financial statements have been prepared in accordance with and comply with the Malaysian Accounting Standards Board ("MASB") Approved Accounting Standards in Malaysia for Entities Other than Private Entities and the provisions of the Companies Act, 1965. The bases of measurement applied to assets and liabilities are cost, amortised cost, lower of cost and net realisable value, revalued amount and fair value.

The preparation of financial statements in conformity with the MASB Approved Accounting Standards in Malaysia for Entities Other than Private Entities and the provisions of the Companies Act, 1965 requires the Directors to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the financial year. It also requires Directors to exercise their judgements in the process of applying the Company's accounting policies. Although these judgements and estimates are based on the Directors' best knowledge of current events and actions, actual results could differ from those judgements and estimates.

JUDGEMENTS AND ESTIMATIONS

In the process of applying the Group's accounting policies, management makes judgements that can significantly affect the amount recognised in the financial statements. These judgements include:

i) Impairment of long term investment

In August 2009, Walker Digital Gaming, LLC ("WDG") restructured its business operations. Arising from this, the Group reviewed its long term investment in WDG for potential impairment. Consequently, an impairment loss of RM48.6 million, which is the excess of the carrying value over the recoverable amount, has been charged to the income statement.

The recoverable amount was determined based on value in use ("VIU") calculation. The key assumptions used for the VIU calculation include:

No. of financial years projected	10 years
Growth rate	1%
Discount rate	15%

The discount rate used is assumed to reflect specific risks relating to the relevant industries. If the discount rate used is 1% lower with all other variables being held constant, the impairment for the Group will be lower by RM24.3 million. If the discount rate used is 1% higher with all other variables being held constant, the impairment loss for the Group will be higher by RM17.3 million.

ii) Impairment of available-for-sale financial asset

The Group had accounted for its investment in Genting Hong Kong Limited (formerly known as Star Cruises Limited) ("Genting HK") as an "available-for-sale financial asset" ("AFS") in compliance with FRS 139 "Financial Instruments: Recognition and Measurement", which is measured at its fair value based on Genting HK's quoted share prices. Any gain or loss arising from a change in the fair value of the AFS has been recognised directly in equity, through the statement of changes in equity.

Pursuant to paragraph 61 of FRS 139, a significant or prolonged decline in the fair value of an investment in an equity instrument below its cost is objective evidence of impairment. Consequently, the fair value loss of RM30.4 million (2008: RM781.5 million) in the investment in Genting HK is recognised as an impairment loss in the income statement. This fair value loss of RM30.4 million represents the decline in Genting HK's share price to USD0.08 per share as at 31 March 2009 from the Group's carrying value of USD0.085 per share as at 31 December 2008.

Subsequently, Genting HK's share price rose to USD0.26 per share as at 31 December 2009 from the Group's carrying value of USD0.08 per share as at 31 March 2009. Consequently, a fair value gain of RM887.9 million in the investment in Genting HK is recognised directly in equity through the statement of changes in equity.

iii) Impairment of investments in subsidiaries

The Company follows the guidance of FRS 136 "Impairment of Assets" to determine whether the Company's investment in subsidiary is impaired. In making this judgement, the Company evaluates, among other factors, the fair value and value in use of its subsidiaries. The fair value is the amount obtainable from the sale of an asset or cash generating unit of the subsidiary in an arms length transaction less the cost of disposal. The determination of fair value is based on the best information available including but not limited to the quoted market prices when available and independent appraisals, as appropriate. The calculation of value in use takes into consideration of estimated future cash flows of the subsidiary, expectations about possible variations in the amount or timing of these future cash flows, and time value of money.

The investment in subsidiary will be impaired if the carrying amount exceeds its recoverable amount measured at the higher of its fair value less cost to sell and value in use. An impairment loss is charged to the income statement.

During the financial year, the Company recorded an impairment loss of RM5.9 million (2008: RM1,040.2 million) in the income statement.

2. BASIS OF PREPARATION (cont'd)

JUDGEMENTS AND ESTIMATIONS (cont'd)

iv) Classification of investments

Management uses its judgement to determine the classification of the Group's investments into current and non-current. An investment is classified as current if it is readily realisable and it is held for trading or intended to be realised within 12 months after the balance sheet date. All other investments are classified as non-current.

Significant estimates used in the preparation of financial statements that may cause a material adjustment to the carrying amount of assets and liabilities are:

i) Provision for taxation

The Group is subject to income taxes in numerous jurisdictions in which the Group operates. Significant judgement is required in determining the provision for income taxes. There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for tax based on estimates of assessment of the tax liability due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

3. SIGNIFICANT ACCOUNTING POLICIES

Standards, amendments to published standards and interpretations to existing standards that are applicable and effective

There are no new accounting standards, amendments to published standards and interpretations to existing standards that are applicable and effective for the Group and the Company's financial year ended 31 December 2009.

Accounting policies adopted by the Group and the Company have been applied consistently in dealing with items that are considered material in relation to the financial statements, unless otherwise stated.

Standards, amendments to published standards and interpretations to existing standards that are applicable but not yet effective and have not been early adopted

The following standards, amendments and interpretations that are applicable to the Group, but which the Group has not early adopted, are as follows:

- FRS 3 (revised) "Business Combinations" (effective prospectively from 1 July 2010) continues to apply the acquisition method to business combinations, with some significant changes. For example, all payments to purchase a business are to be recorded at fair value at the acquisition date, with contingent payments classified as debt subsequently re-measured through the income statement. There is a choice on an acquisition-by-acquisition basis to measure the non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets. All acquisition-related costs should be expensed. The Group will apply this revised standard prospectively from 1 January 2011.
- FRS 8 "Operating Segments" (effective from 1 July 2009) replaces FRS 114²⁰⁰⁴ Segment Reporting. The new standard requires a 'management approach', under which segment information is reported in a manner that is consistent with the internal reporting provided to the chief operating decision-maker. The improvement to FRS 8 (effective from 1 January 2010) clarifies that entities that do not provide information about segment assets to the chief operating decision-maker will no longer need to report this information. Prior year comparatives must be restated. The Group will implement the new disclosure requirements from 1 January 2010. The adoption of this standard is not expected to have any material impact on the financial statements of the Group.
- FRS 101 (revised) "Presentation of Financial Statements" (effective from 1 January 2010) prohibits the presentation of items of income and expenses (that is, 'non-owner changes in equity') in the statement of changes in equity, requiring 'non-owner changes in equity' to be presented separately from owner changes in equity. All non-owner changes in equity is required to be shown in a performance statement, but entities can choose whether to present one performance statement (the statement of comprehensive income) or two statements (the income statement and statement of comprehensive income). Where entities restate or reclassify comparative information, they are required to present a restated balance sheet as at the beginning comparative period in addition to the current requirement to present balance sheets at the end of the current period and comparative period. The Group will apply this revised standard from 1 January 2010.
- The amendments to FRS 2 "Share-based Payment: Vesting Conditions and Cancellations" (effective from 1 January 2010) clarify that vesting conditions are service conditions and performance conditions only. Other features of a share-based payment are not vesting conditions. These features would need to be included in the grant date fair value for transactions with employees and others providing similar services; they would not impact the number of awards expected to vest or valuation there of subsequent to grant date. All cancellations, whether by the entity or by other parties, should receive the same accounting treatment. The improvement to FRS 2 (effective from 1 July 2010) clarifies that contributions of a business on formation of a joint venture and common control transactions are outside the scope of FRS 2. The Group will apply the amendments and improvements to this standard from 1 January 2010 and 1 January 2011, respectively. The adoption of amendments and improvements to this standard is not expected to have any material impact on the financial statements of the Group and the Company.
- The amendments to FRS 127 "Consolidated and Separate Financial Statements: Cost of an investment in a subsidiary, jointly controlled entity or associate" (effective from 1 January 2010) remove the definition of the cost method from FRS 127 and replaces it with a requirement to present dividends as income in the separate financial statements of the investor. The revised FRS 127 (effective prospectively from 1 July 2010) requires the effects of all transactions with non-controlling interests to be recorded in equity if there is no change in control and these transactions will no longer result in goodwill or gains and losses. The standard also specifies the accounting when control is lost. Any remaining interest in the entity is re-measured to fair value, and a gain or loss is recognised in profit or loss. The Group will apply the amendments to this standard and the subsequent revised standard from 1 January 2010 and 1 January 2011, respectively.

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Standards, amendments to published standards and interpretations to existing standards that are applicable but not yet effective and have not been early adopted (cont'd)

- FRS 139 "Financial Instruments: Recognition and Measurement" (effective from 1 January 2010) establishes principles for recognising and measuring financial assets, financial liabilities and some contracts to buy and sell non-financial items. The amendments to FRS 139 permit the reclassifications of financial assets classified as held for trading (but not designated under the fair value option) if the financial asset meets the definition of a loan or receivable at the date of reclassification and the entity has the intent and ability to hold it for the foreseeable future or to maturity. For other financial assets (that is, those that do not meet the definition of a loan or receivable at the date of reclassification), the financial asset may be reclassified only in rare circumstances. Assets classified as available-for-sale may be reclassified as loans and receivables provided they would have met the definition of a loan or receivable, and the company has the intent and ability to hold the asset for the foreseeable future or to maturity.
 - IC Interpretation 9 "Reassessment of Embedded Derivatives" (effective from 1 January 2010) requires an entity to assess whether an embedded derivative is required to be separated from the host contract and accounted for as a derivative when the entity first becomes a party to the contract. Subsequent reassessment is prohibited unless there is a change in the terms of the contract that significantly modifies the cash flows that otherwise would be required under the contract, in which case reassessment is required. The improvement to IC Interpretation 9 (effective from 1 July 2010) clarifies that this interpretation does not apply to embedded derivatives in contracts acquired in a business combination, businesses under common control or the formation of a joint venture.
 - FRS 7 "Financial instruments: Disclosures" (effective from 1 January 2010) provides information to users of financial statements about an entity's exposure to risks and how the entity manages those risks. The improvement to FRS 7 clarifies that entities must not present total interest income and expense as a net amount within finance costs on the face of the income statement.
 - IC Interpretation 10 "Interim Financial Reporting and Impairment" (effective from 1 January 2010) prohibits the impairment losses recognised in an interim period on goodwill and investments in equity instruments and in financial assets carried at cost to be reversed at a subsequent balance sheet date. The adoption of this IC Interpretation is not expected to have any material impact on the financial statements of the Group.
 - IC Interpretation 11 "FRS 2 Group and Treasury Share Transactions" (effective from 1 January 2010) provides guidance on whether share-based transactions involving treasury shares or involving group entities (for example, options over a parent's shares) should be accounted for as equity-settled or cash-settled share-based payment transactions in the stand-alone accounts of the parent and group companies. The adoption of this IC Interpretation is not expected to have any material impact on the financial statements of the Group and the Company.
 - IC Interpretation 13 "Customer Loyalty Programmes" (effective from 1 January 2010) clarifies that where goods or services are sold together with a customer loyalty incentive (for example, loyalty points or free products), the arrangement is a multiple-element arrangement and the revenue in respect of the consideration receivable from the customer is allocated between the components of the arrangement using fair values. Management is currently assessing the impact of this interpretation on the Group's financial statements.
- The Group and the Company have applied the transitional provision in the respective standards and interpretation which exempts entities from disclosing the possible impact arising from the initial application of the standards and interpretation on the financial statements of the Group and the Company.
- FRS 139, Amendments to FRS 139 and IC Interpretation 9
 - FRS 7 and Improvement to FRS 7
- The following amendments are part of the MASB improvements project issued in September 2009 that are relevant and effective for annual periods beginning on or after 1 January 2010:
- FRS 107 "Cash Flow Statements" clarifies that only expenditure resulting in a recognised asset can be categorised as a cash flow from investing activities.
 - FRS 108 "Accounting Policies, Changes in Accounting Estimates and Errors" clarifies the use of implementation guidance in the standard.
 - FRS 110 "Events After the Balance Sheet Date" confirms that dividends are liabilities when the company is obliged to pay.
 - FRS 116 "Property, Plant and Equipment" and consequential amendment to FRS 107 "Cash Flow Statements" requires entities whose ordinary activities comprise of renting and subsequently selling assets to present proceeds from the sale of those assets as revenue and should transfer the carrying amount of the asset to inventories when the asset becomes held for sale. Cash flows arising from purchase, rental and sale of those assets are classified as cash flows from operating activities.
 - FRS 117 "Leases" requires entities with existing leases of land and buildings (combined) to reassess the classification of land as a finance or operating lease, using the general principles of FRS 117.
 - FRS 118 "Revenue" replaces the term 'direct costs' with 'transaction costs' and clarifies the distinction between when an entity is acting as a 'principal' and an 'agent'.
 - FRS 119 "Employee Benefits" clarifies the terms 'curtailments' and 'negative past service cost', changes the definition of 'return on plan assets' and replacement of term 'fall due'.
 - FRS 128 "Investments in Associates", FRS 7 "Financial Instruments: Disclosure", FRS 132 "Financial instruments: Disclosure and presentation" and FRS 131 "Interests in Joint Ventures" clarify the accounting for an impairment on an investments in associates or interests in jointly controlled entities and only certain disclosures are required when investments in associates or interests in jointly controlled entities are accounted for at fair value through profit or loss.

- FRS 134 "Interim Financial Reporting" clarifies the presentation of earnings per share information.
- FRS 136 "Impairment of Assets" requires disclosure of estimates used to determine recoverable amount and clarifies that entities must assess their goodwill impairment within cash-generating units at or below the operating segment level.

The following amendments are part of the MASB improvements project issued in September 2009 that are effective for annual periods beginning on or after 1 January 2010 but not relevant to the Group and the Company:

FRS 5	Non-Current Assets Held for Sale and Discontinued Operations

The following are the significant accounting policies adopted by the Group:

Basis of Consolidation

Investments in subsidiaries are eliminated on consolidation while investments in jointly controlled entities and associates are accounted for by the equity method of accounting.

a) Subsidiaries

The consolidated financial statements include the financial statements of the Company and all its subsidiaries made up to the end of the financial year. Subsidiaries are those companies in which the Group has power to exercise control over the financial and operating policies so as to obtain benefits from their activities.

Subsidiaries are consolidated from the date on which effective control is transferred to the Group and are no longer consolidated from the date that control ceases. Subsidiaries are consolidated using the purchase method of accounting whereby the results of subsidiaries acquired or disposed of during the financial year are included from the date of acquisition up to the date when the control ceases. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the Group's share of the fair value of the identifiable net assets of the subsidiary acquired at the date of acquisition is reflected as goodwill. See the accounting policy note on the treatment of goodwill.

All material intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also been eliminated unless cost cannot be recovered. Where necessary, accounting policies for subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

The gain or loss on disposal of a subsidiary is the difference between net disposal proceeds and the Group's share of its net assets together with any balance of goodwill on acquisition and exchange differences which were not previously recognised in the consolidated income statement.

Minority interests is measured at the minorities' share of the fair value of the identifiable assets and liabilities of the subsidiary as at the date of acquisition and the minorities' share of movements in the subsidiary's net assets since that date.

b) Jointly controlled entities

Jointly controlled entities are corporations, partnerships or other entities over which there is contractually agreed sharing of control by the Group with one or more parties.

The Group's interests in jointly controlled entities are accounted for in the consolidated financial statements by the equity method of accounting. Equity accounting involves recognising the Group's share of the post acquisition results of jointly controlled entities in the income statement and its share of post acquisition movements within reserves in reserves. The cumulative post acquisition movements are adjusted against the cost of the investment and includes goodwill on acquisition less impairment losses, where applicable. See accounting policy note on impairment of assets.

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

31 December 2009

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Basis of Consolidation (cont'd)

b) Jointly controlled entities (cont'd)

The Group recognises the portion of gains or losses on the sale of assets by the Group to the joint venture that is attributable to the other parties in the ventures. The Group does not recognise its share of profits or losses from the joint venture until it resells the assets to an independent party. However, if a loss on the transaction provides evidence of a reduction in the net realisable value of current assets or an impairment loss, the loss is recognised immediately.

Where necessary, in applying the equity method, adjustments have been made to the financial statements of jointly controlled entities to ensure consistency of accounting policies with those of the Group.

Property, Plant and Equipment

Property, plant and equipment are tangible items that:

- i) are held for use in the production or supply of goods or services, or for administrative purposes; and
- ii) are expected to be used during more than one period.

Property, plant and equipment are stated at cost less accumulated depreciation and impairment loss where applicable.

Cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period that they are incurred.

The depreciable amount of an item of property, plant and equipment is determined as the difference between the cost less its residual value. The residual value is the estimated amount that the Group expects to obtain from disposal of the asset, after deducting the estimated cost to disposal, if the asset was already of the age and in the condition expected at the end of its useful life.

Freehold land and property, plant and equipment which are under construction are not depreciated. Depreciation on assets under construction commences when the assets are ready for their intended use. The Group depreciates other assets based on their consumption pattern and is applied separately to each significant component.

Other property, plant and equipment are depreciated over their estimated useful life using the straight-line method. The annual rates of depreciation used for the major classes of property, plant and equipment are as follows:

Buildings and improvements	2% – 50%
Plant, equipment and vehicles	5% – 50%

The assets residual values and useful life are reviewed annually and revised if appropriate.

Where an indication of impairment exists, the carrying amount of the asset is assessed and written down immediately to its recoverable amount. See accounting policy note on impairment of assets.

Gains and losses on disposals are determined by comparing net disposal proceeds with the carrying amount and are included in the income statement.

Investment Properties

Investment properties consist of investments in land and buildings that are held for long-term rental yield and/or for capital appreciation and are not occupied by the Group. It is initially measured at cost, including direct transaction costs.

The Group adopted the cost model to measure all its investment properties. Under the cost model, investment property is measured at depreciated cost less any accumulated impairment losses. The annual rate of depreciation used for investment properties is 2%.

Where an indication of impairment exists, the carrying amount of the asset is assessed and written down immediately to its recoverable amount. See accounting policy note on impairment of assets.

Gains and losses on disposal are determined by comparing net disposal proceeds with the carrying amount and are included in the income statement.

Leasehold Land Use Rights

Leasehold land normally has a finite economic life and title is not expected to pass to the lessee by the end of the lease term. The payment made on entering into or acquiring a leasehold land is accounted as leasehold land use rights (referred to as prepaid lease payment in FRS 117 "Leases") that are amortised over the lease term in accordance with the pattern of benefits provided.

Leasehold land use rights with lease period of 99 years or less are amortised equally over their respective periods of lease.

Property Development Activities

a) Land held for property development

Land held for property development consists of land on which no significant development work has been undertaken or where development activities are not expected to be completed within the normal operating cycle. Such land is classified as non-current asset and is stated at cost less accumulated impairment losses, if any.

Cost comprises cost of land and all related costs incurred on activities necessary to prepare the land for its intended use. Where the Group had previously recorded the land at revalued amounts, it continues to retain this amount as its surrogate cost as allowed by FRS 201₂₀₀₄ (previously MASB 32) "Property Development Activities". Where an indication of impairment exists, the carrying amount of the asset is assessed and written down immediately to its recoverable amount. See accounting policy note on impairment of assets.

Land held for development is transferred to property development costs and included under current assets when development activities have commenced and where the development activities can be completed within the normal operating cycle.

b) Property development costs

Property development costs comprise costs associated with the acquisition of land and all costs directly attributable to development activities or costs that can be allocated on a reasonable basis to these activities.

When the outcome of the development activity can be estimated reliably, property development revenue and expenses are recognised by using the percentage of completion method in respect of sales where agreements have been finalised. Under this method, profits are recognised as the property development activity progresses. The stage of completion is determined based on proportion of property development costs incurred for work performed up to the balance sheet date over the estimated total property development cost to completion.

When the outcome of a development activity cannot be reliably estimated, property development revenue is recognised only to the extent of property development costs incurred that is probable of recovery, and property development costs on the development units sold are recognised when incurred. Foreseeable losses, if any, arising when it is probable that total property development costs (including expected defect liability expenditure) will exceed total property development revenue, are recognised immediately in the income statement.

Property development costs not recognised as an expense is recognised as an asset and is stated at the lower of cost and net realisable value. Upon completion of development, the unsold completed development properties are transferred to inventories.

Where revenue recognised in the income statement exceed billings to purchasers, the balance is shown as accrued billings under trade and other receivables (within current assets). Where billings to purchasers exceed revenue recognised in the income statement, the balance is shown as progress billings under trade and other payables (within current liabilities).

Available-For-Sale Financial Asset

Pursuant to paragraphs 18 and 19 of FRS 128, "Investments in Associates", in the event the Group ceased to have significant influence over its associates, the Group shall discontinue the use of equity method from the date that it ceases to have significant influence over the associate and shall account for the investment in accordance with FRS 139, "Financial Instruments: Recognition and Measurement", from that date.

The carrying amount of the investment at the date of recognition is regarded as its cost on initial measurement as an available-for-sale financial asset ("AFS"). After the initial measurement, the Group measures the AFS at its fair values based on quoted prices in an active market.

Any gain or loss arising from a change in the fair value of the AFS is recognised directly in equity as Fair Value Reserve, except for impairment losses and foreign exchange gains and losses, if any, until the AFS is derecognised, at which time the cumulative gain or loss previously recognised in equity shall be recognised in income statement.

When a decline in the fair value of the AFS has been recognised directly in equity and there is objective evidence that the asset is impaired, the cumulative loss that had been recognised directly in equity is removed from Fair Value Reserve and recognised in the income statement even though the AFS has not been derecognised. Impairment losses are incurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. The amount of cumulative loss is measured as the difference between the carrying amount and current fair value, less any impairment loss on that AFS previously recognised in the income statement including any related foreign exchange component. Impairment losses recognised in the income statement on such amount are not subsequently reversed through income statement.

Investments

Long term investments, both quoted and unquoted, include investments in subsidiaries, jointly controlled entities, associates and other non-current investments.

Investments in other long term investments are stated at cost less impairment losses. An allowance for diminution in value is made where, in the opinion of the Directors, there is a decline other than temporary in the value of such investments. Such a decline is recognised as an expense in the period in which it is identified.

Short term quoted investments are stated at the lower of cost and market value, determined on a portfolio basis by comparing aggregate cost against aggregate market value. Market value is calculated by reference to quoted selling prices at the close of business on the balance sheet date. Money market instruments are stated at the lower of cost and net realisable value.

On disposal of an investment, the difference between net disposal proceeds and its carrying amount is charged/credited to the income statement.

Intangible Assets

Goodwill represents the excess of the cost of acquisition over the Group's share of the fair value of the identifiable net assets of the subsidiaries/jointly controlled entities at the date of acquisition. Goodwill on acquisition of subsidiaries on or after 1 January 2004 is recognised as an intangible asset and disclosed separately on the consolidated balance sheet at cost less any impairment losses. Goodwill, less any impairment losses, on acquisition of associates occurring on or after 1 January 2004 is included in investments in associates and is tested for impairment as part of the overall balance. Separately recognised goodwill is tested annually for impairment and is stated at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash generating units for the purpose of annual impairment testing. The allocation is made to those cash generating units or groups of cash generating units that are expected to benefit from the business combination in which the goodwill arose.

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Impairment of Assets

The carrying values of assets, other than inventories, assets arising from construction contracts, deferred tax assets and financial assets (excluding investments in subsidiaries and jointly controlled entities), are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If such indication exists, an impairment review is performed to assess whether the carrying amount of the asset is fully recoverable.

Irrespective of whether there is any indication of impairment, the Group also:

- a) tests intangible assets with indefinite useful life or intangible assets not yet available for use, if any, for impairment annually by comparing its carrying amount with its recoverable amount; and
- b) tests goodwill acquired in a business combination, if any, for impairment annually.

Impairment loss is recognised when the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and its value in use, which is measured by reference to discounted future cash flows. Recoverable amounts are estimated for individual assets, or if it is not possible, for the cash generating unit.

An impairment loss is charged to the income statement, unless the asset is carried at revalued amount, in which case the impairment loss is used to reduce the revaluation surplus.

Assets other than goodwill that have suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

An impairment loss is reversed only to the extent of previously recognised impairment losses for the same asset unless the asset is carried at revalued amount, in which case the reversal shall be treated as a revaluation increase. An impairment loss recognised for goodwill shall not be reversed in a subsequent period.

Refer accounting policy on "Available-For-Sale Financial Asset" for impairment of available-for-sale financial assets.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost includes, where relevant, appropriate proportions of overheads and is determined on a weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business, less costs to completion and selling expenses.

The cost of unsold properties comprises cost associated with the acquisition of land, direct costs and an appropriate proportion of allocated costs attributable to property development activities.

Assets Classified as Held for Sale

Non-current assets are classified as assets held for sale and stated at the lower of carrying amount and fair value less costs to sell if their carrying amount is recovered principally through a sale transaction rather than a continuing use.

Receivables

Receivables are carried at estimated realisable value. In estimating realisable value, an allowance is made for doubtful receivables based on a review of all outstanding amounts at the financial year end. Bad debts are written off to the income statement during the financial year in which they are identified.

Cash and Cash Equivalents

Cash and cash equivalents include cash and bank balances, deposits and other short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Money market instruments are included within the short term investments in current assets in the balance sheet.

Share Capital

Ordinary shares are classified as equity in the balance sheet. Costs directly attributable to the issuance of new equity shares are taken to equity as a deduction from the proceeds.

Treasury Shares

Where the Company or its subsidiaries purchases the Company's equity share capital, the consideration paid, including any directly attributable incremental external costs, net of tax, is deducted from total shareholders' equity as treasury shares until they are cancelled, reissued or disposed of.

Where such shares are subsequently sold or reissued, any consideration received, net of any directly attributable incremental external costs and the related tax effects, is included in shareholders' equity.

Where the share retirement method is applied, the nominal value of the shares repurchased is cancelled by a debit to the share capital account. An amount equivalent to the nominal value of the shares repurchased is transferred to a capital redemption reserve.

The consideration, including any acquisition cost and premium or discount arising from the shares repurchased, is adjusted directly to the share premium account or any other suitable reserve. In the circumstance where there is no or insufficient share premium, the consideration, or its balance thereof, is adjusted to any other suitable reserve.

The shares cancelled and the adjustments made to share premium or reserves would be shown as a movement in the share capital account and the share premium or reserve account respectively.

Contingent Liabilities and Contingent Assets

The Group does not recognise a contingent liability but discloses its existence in the financial statements. A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. When a change in the probability of an outflow of economic resources occurs so that the outflow is probable, it will then be recognised as a provision.

A contingent asset is a possible asset that arises from past events whose existence will be confirmed by uncertain future events beyond the control of the Group. The Group does not recognise contingent assets but discloses its existence where inflow of economic benefits are probable, but not virtually certain. When inflow of economic resources is virtually certain, the asset is recognised.

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and when a reliable estimate can be made of the amount of the obligation.

Income Taxes

a) Current taxation

Current taxation is determined according to the tax laws of each jurisdiction in which the Group operates and includes all taxes based upon the taxable income and is measured using the tax rates which are applicable at the balance sheet date.

b) Deferred taxation

Deferred tax liabilities and/or assets are recognised, using liability method, on temporary differences between the carrying amounts of assets and liabilities in the financial statements and their related tax bases. However, deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deferred tax assets can be utilised. Deferred tax liability in respect of asset revaluations is also recognised. Deferred tax liabilities and assets are measured at the tax rates that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax is recognised on temporary differences arising on investments in subsidiaries, jointly controlled entities and associates except where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Employee Benefits

a) Short term employee benefits

Short term employee benefits include wages, salaries, bonus, social security contributions and paid annual leave. These benefits are accrued when incurred and are measured on an undiscounted basis.

b) Post employment benefits

Post employment benefits include defined contribution plans under which the Group pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. These benefits are accrued when incurred and are measured on an undiscounted basis.

c) Long term employee benefits

Long term employee benefits include retirement gratuities payable under a retirement gratuity scheme which was established in 1991 by the Board of Directors for Executives and Executive Directors of the Company and certain subsidiaries. The level of retirement gratuities payable is determined by the Board of Directors in relation to the past services rendered and it does not take into account the employee's service to be rendered in later years up to retirement. The gratuity, which is calculated based either on length of service and basic salary as at the reporting date or on the basis of emoluments earned in the immediate past three years, is a vested benefit when the employee reaches retirement age.

The present value of the retirement gratuities is determined by discounting the amount payable by reference to market yields at the balance sheet date on high quality corporate bonds which have terms to maturity approximating the terms of the related liability. Employee turnover is also factored in arriving at the level of the retirement gratuities payable. The differences arising from the application of such discounting as well as any past service costs and the effects of any curtailments or settlements, if any, are recognised immediately in the income statement.

Such retirement gratuities payable are classified as current liabilities where it is probable that a payment will be made within the next twelve months and also provided that the amount has been approved for payment by the Board of Directors.

d) Share-based compensation

The Company operates an equity-settled, share-based compensation plan, where share options are issued to the eligible executives and executive directors.

The fair value of employee services rendered in exchange for the grant of the share options is recognised as an expense over the vesting period. The total amount to be expensed in the income statement over the vesting period is determined by reference to the fair value of each share option granted at the grant date and the number of share options vested by vesting date, with a corresponding increase in equity (option reserve). At each balance sheet date, the respective companies will revise its estimates of the number of share options that are expected to become exercisable. The option reserves in respect of options which have been lapsed are transferred to retained earnings.

The proceeds received net of any directly attributable transaction costs are credited to share capital and share premium when the options are exercised.

The fair value of the options was determined using "Trinomial" model based on the closing market price at Offer Date, the exercise price, expected volatility based on its historical volatility, option life and a risk free interest rate of 3.40% to 3.70% based on the yield on Malaysian Government Securities maturing between 5 to 10 years. The fair value of options granted to employees has been treated as additional paid in capital to be recognised as an expense over the option period. The unamortised amount is included as a separate component of reserves.

Revenue Recognition

Revenues are recognised upon delivery of products or performance of services, net of sales tax and discounts, and after eliminating revenue within the Group.

Casino revenue represents net house takings. The casino license in Malaysia is renewable every three months.

Sales of short term investments are accounted net of the cost of the respective investments when the contracts are executed.

Dividend income is recognised when the right to receive payment is established.

Dividends

Dividends on ordinary shares are accounted for in shareholders' equity as an appropriation of retained earnings and accrued as a liability in the financial year in which the obligation to pay is established.

Foreign Currency Translation

a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in Ringgit Malaysia ("RM"), which is the Company's functional and presentation currency.

b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. At the balance sheet date, non-monetary items are translated at balance sheet date using historical rates or rates prevailing when the fair value of the assets are determined. Monetary items are translated at the closing rate. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities at closing rate are recognised in the income statement. However, the exchange differences arising on monetary items that form part of the net investment in the foreign operations are recognised directly in equity in the consolidated financial statements until the disposal of the foreign operations in which case they are recognised as gain or loss in the consolidated income statement.

c) Group companies

On consolidation, the results and financial position of all the Group's entities which have a functional currency different from that of the Group's presentation currency are translated into the Group's presentation currency as follows:

- i) assets and liabilities, including goodwill and fair value adjustments arising from business combinations, for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- ii) income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- iii) all resulting exchange differences are recognised as a separate component of equity.

Financial Instruments

A financial instrument is any contract that gives rise to both a financial asset of one enterprise and a financial liability or equity instrument of another enterprise.

A financial asset is any asset that is cash, a contractual right to receive cash or another financial asset from another enterprise, a contractual right to exchange financial instruments with another enterprise under conditions that are potentially favourable, or an equity instrument of another enterprise.

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another enterprise, or to exchange financial instruments with another enterprise under conditions that are potentially unfavourable.

a) Financial instruments recognised on the balance sheet

The recognition method adopted for financial instruments that are recognised on the balance sheet are disclosed separately in the individual policy statements associated with the relevant financial instruments.

The financial assets and liabilities of the Group are primarily denominated in Ringgit Malaysia. Financial assets and liabilities that are denominated in other currencies, where material, have been disclosed in the Notes to the financial statements.

b) Financial instruments not recognised on the balance sheet

The Group is a party to a call option agreement as disclosed in Note 38 to the financial statements. The instrument is not recognised in the financial statements on inception.

c) Fair value estimation for disclosure purposes

The fair value of publicly traded securities is based on quoted market prices at the balance sheet date. For non-traded financial instruments, the Group uses various methods and makes assumptions that are based on market conditions. Comparisons are made to similar instruments that are publicly traded and estimates based on discounted cash flow techniques are also used. For other long term financial assets and liabilities, fair value is estimated by discounting future contractual cash flows at appropriate interest rates.

The book values of financial assets and liabilities with maturities of less than one year are assumed to approximate their fair values.

Segmental Reporting

The Group adopts business segment analysis as its primary reporting format and geographical segment analysis as its secondary reporting format.

Revenues are attributed to geographical segments based on location of customers where sale is transacted. Assets are allocated based on location of assets.

Segment revenues and expenses are those directly attributable to the segments and include any joint revenues and expenses where a reasonable basis of allocation exists. Segment assets include all assets used by the segment and consist principally of property, plant and equipment net of accumulated depreciation, amortisation and impairment loss, land held for property development, property development costs, inventories and receivables. Segment liabilities comprise operating liabilities. Both segment assets and liabilities do not include income tax assets and liabilities and interest bearing instruments.

4. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's overall financial risk management objective is to optimise the value creation for shareholders. The Group seeks to minimise the potential adverse impacts arising from fluctuations in foreign currency exchange and interest rates and the unpredictability of the financial markets.

The Group operates within clearly defined guidelines that are approved by the Board of Directors and do not trade in financial instruments. Financial risk management is carried out through risk reviews conducted at all significant operational units. This process is further enhanced by effective internal controls, a group-wide insurance programme and adherence to the financial risk management policies.

The main areas of financial risks faced by the Group are as follows:

Foreign currency exchange risk

The Group is exposed to foreign currency exchange risk when it enters into transactions that are not denominated in their functional currencies. The Group attempts to significantly limit its exposure for all committed transactions by entering into forward foreign currency exchange contracts within the constraints of market and government regulations.

Interest rate risk

The Group has no significant exposure in interest rate risk.

Market risk

The Group, in the normal course of business, is exposed to market risks in respect of its equity investments. The Group manages its risk through established guidelines and policies.

Credit risk

Exposure to credit risk arises mainly from sales made on deferred credit terms. Credit terms offered by the Group range from 30 days to 60 days from date of transaction. Risks arising therefrom are minimised through effective monitoring of receivables and suspension of sales to customers which accounts exceed the stipulated credit terms. Credit limits are set and credit history is reviewed to minimise potential losses.

The Group also seeks to invest cash assets safely and profitably and buys insurance to protect itself against insurable risks. In this regard, counterparties are assessed for credit risks and limits are set to minimise any potential losses.

Liquidity risk

The Group practices prudent liquidity risk management to minimise the mismatch of financial assets and liabilities. The Group's cash flow is reviewed regularly to ensure that the Group is able to settle its commitments when they fall due.
